The only possible place to start this little essay is with congratulations to every member of the St. Louis Chapter who toiled to make this year's NCRS National Convention a tremendous success. Most of the time it was hot, some of the time it rained and it was a lot of work all week, but it was always a lot of fun, from the road tour parade on Sunday through the awards banquet on Thursday evening. Attendees from around the country, and from as far away as New Zealand and Australia, offered their praise and thanks throughout the week.

The countless hours of hard work by Joan Burnett who served as convention chair, and Kelly Waite who was our chapter co-chair, were evident throughout the week. But I want to sincerely thank the dozens of chapter members without whom this convention could simply not have happened. I can't name everyone here because so many of you volunteered. From those who baked on the parking lots, to those who lined up the judging field like a jig-saw puzzle and then took it apart again on Thursday afternoon, to those who led the tours and events. THANKS TO EACH AND EVERY ONE OF YOU!

(Pictures are available at [http://www.stlouisncrs.org/NCRS\\_2008/NCRS\\_2008+.htm](http://www.stlouisncrs.org/NCRS_2008/NCRS_2008+.htm) )

I also want to thank the many members of the Kansas City Chapter for their hard work as well. From Dana Forrester's outstanding artwork to the labor of the KC members who worked hand-in-hand with the St. Louis members in every way. These folks also had the extra burden of lodging at the convention, so in most instances their contribution was even costlier than ours. Please pass along our Chapter thanks the next time you run into a KC member.

At our August dinner/business meeting we overwhelmingly passed a motion to reimburse from our treasury, any member who had out of pocket costs associated with their volunteer activities, especially those on tours who had to pay admission charges. If you had any out of pocket costs while volunteering, please contact Joan Burnett as soon as possible.

The St. Louis Chapter was also recognized the NCRS business meeting for our accomplishments outside of the convention. St. Louis was one of only 22 chapters who received the Chapter Top Flight Award for our ongoing activities. This too is because of the ongoing involvement of so many Chapter members. This is the fifth time that our Chapter has achieved Top Flight status.

Thus far this year we have conducted two chapter judging meets during which time a remarkable showing of members judged a total of 10 Corvettes, and we've co-hosted a Nation convention. We still have unfinished business remaining. We are planning a fall road tour, a charity event and a holiday celebration. Therefore, you still have opportunities to join and to meet the new members who have joined the chapter this year. We hope to see you at an upcoming event.

### Marvin

By Cherie Garrette

Marvin Burnett passed away on Thursday, September 16th. Marvin and Joan have been a driving force in NCRS on both the local and national levels for many years. Marvin wrote judging manuals and held numerous offices in NCRS. He was a great friend to all with a ready smile and was always willing to pitch in to help doing whatever was needed. Marvin was a cornerstone of our St Louis NCRS chapter and

will be sorely missed. Joan, we will be here for you during this difficult time. Donations may be made in the honor of Marvin to the NCRS Foundation, P.O. Box 390, Bellevue, OH 44811-0390. Over the years Marvin has supported & done many things for the NCRS Youth and there is no better way to honor Marvin's NCRS activities.

### What I learned About Harrison Radiators

By Kelly Waite

I was lucky enough to get a car recently that had an original Harrison Radiator. The following pictures show some of the unique characteristics of the Harrison Radiator.

This is from a 63...but I understand that the Harrison Radiator for small blocks were the same for all mid years.

Picture one shows that there is a gap / line on the right hand side of the radiator.

Figure 1

That is just part of the design. Also of note...that early 63s had the warning label on the left side of the radiator vs the fan shroud like later models. The Harrison Label is slightly larger than the reproduction labels.....and has slightly different spacing of the words. I had showed

Marvin the difference....and he suggested that it may be due to patent issues that reproduction parts are sometimes a little different. The top also has an green border transparent inspection label and a "16 CT" stamp in white ink.

Picture two shows a more up close picture of the label. The label is slightly different than later models....and reads "filler cap must be tight....." The picture attached does not show it well....but there is also a model and date code on the top. M62 is for December, 1962. Also if you look down the top of the radiator.....you will see two indentations in the form of a small oval race track on the left side....and another indentation on the right hand side.

Figure 2

Picture three shows a closer view of the gap on top of the radiator.

**Figure 3**

Picture four shows that the bottom also had a gap.....right in the middle of the radiator. Also interesting to note that the bottom had several oval circle indentations - - see picture five.

**Figure 4**

**Figure 5**

Picture six shows the back side of the radiator. Jim Augustus had noted that some original

**Figure 6**

Harrisons came with aluminum plenums.....rather than brass. This one may have been replaced. Picture 7 shows the side view of the radiator.

**Figure 7**

I am hoping that this radiator will hold up and not leak. We will see.

## Events

### Chapter Judging Meet at Love Park on September 6<sup>th</sup>

By Bernie Myers

Saturday, September 6 we held our most recent judging event and picnic. Mother Nature cooperated by providing a beautiful day for an outdoor event and attendance was up slightly from the spring event. Total attendance exceeded forty. Twenty six members assisted with judging and four with tabulating.

Six additional cars registered for Sportsman ®. They were Fred Oberhaus, John Foster, Joe Anthes, Joan & Marvin Burnett, Jim Galinsky and Frank Savetz.

I would like to thank everyone that participated.

The picnic was great! There was an abundance of good food. Ernie Durlas cooked the burgers and brats. The club provided the basic fare and there were plenty of sides dishes, salads and

deserts provided by the members. Again, thank you to all that brought a dish to share.

These semi-annual judging events have become quite popular. Once an ad is published in the Driveline, I normally receive more than enough inquiries to fill the event. There were ten requests for this event so, even after a withdrawal of one of the original registrants I was able to retain a full slate from a list of contingents. This demonstrates that if you want your car judged, you should get your registration in early. If you attend chapter meetings, you will always receive advance notice.

Look for another event next spring.

Five cars were judged. Judging results were:

- |   |                 |
|---|-----------------|
| • Michael Ksiazek, 1965 Convertible         | Top Flight ®    |
| • Dale Baker, 1965 Coupe                    | Second Flight ® |
| • Randy Rapp, 1966 Coupe                    | Top Flight ®    |
| • Clay Erickson, 1967 Convertible           | Top Flight ®    |
| • Dennis & Karen Marshall, 1969 Convertible | Top Flight ®    |
